SUSTAINABLE

DEVELOPMENT

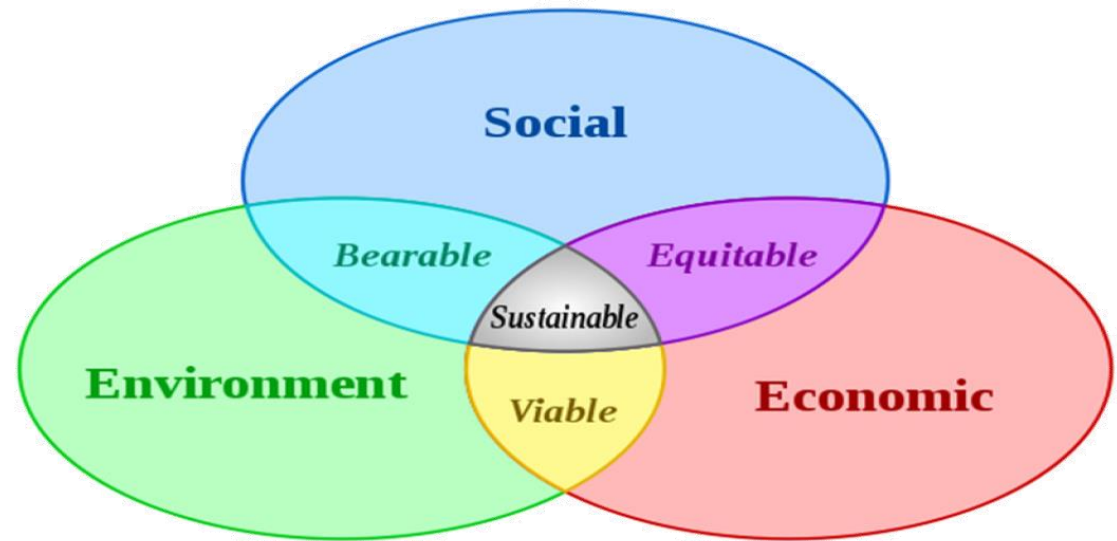

WHAT IS SUSTAINABLE DEVELOPMENT

SUSTAINABLE DEVELOPMENT

- *In this time of globalization, people are now focusing on developing a safer and more beautiful world for the future generation, demanding sustainable development.*
- ***Sustainable development is a concept that has been developed to fulfil the current needs without harming the future ability.***

The Sustainable Development Model

CONCEPT

- *Sustainability and sustainable development are not the same. Sustainability is a long-term vision of commitment or goals, while the process or way to achieve those goals is known as sustainable development.*
- *Sustainability is a multidimensional concept, and it often describes the concept of sustainable development through 4 pillars. The four pillars of this concept are society, culture, environment, and economy.*

SUSTAINABLE DEVELOPMENT IN INDIA

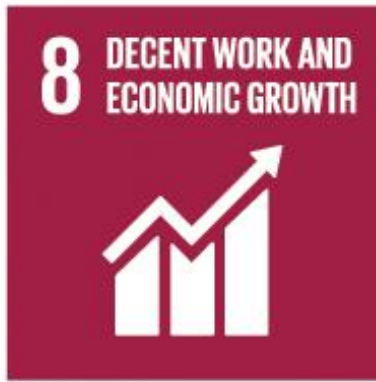

- ❑ *The environmental story of Indian cities has been largely negative.*
- ❑ *In terms of the average concentration of PM2.5 in India, the country ranked the eighth most polluted among nations, exceeding 10.7 times the World Health Organization (WHO)'s annual air quality guideline value.*

The Sustainable Development Report 2022 ranks India 121 out of 163 nations and gives an SDG Index score of 60.3.

❖ *India is critical in determining the success of the SDGs, globally. At the UN Sustainable Development Summit in 2015, Prime Minister Narendra Modi noted, “Sustainable development of one-sixth of humanity will be of great consequence to the world and our beautiful planet. It will be a world of fewer challenges and greater hope; and, more confident of its success”.*

THE SUSTAINABLE DEVELOPMENT GOALS IN INDIA

CONCEPT OF CIRCULAR ECONOMY

A circular economy (also referred to as circularity or CE)[2] is a model of production and consumption, which involves sharing, leasing, reusing, repairing, refurbishing and recycling existing materials and products for as long as possible

CIRCULAR ECONOMY

TAKE

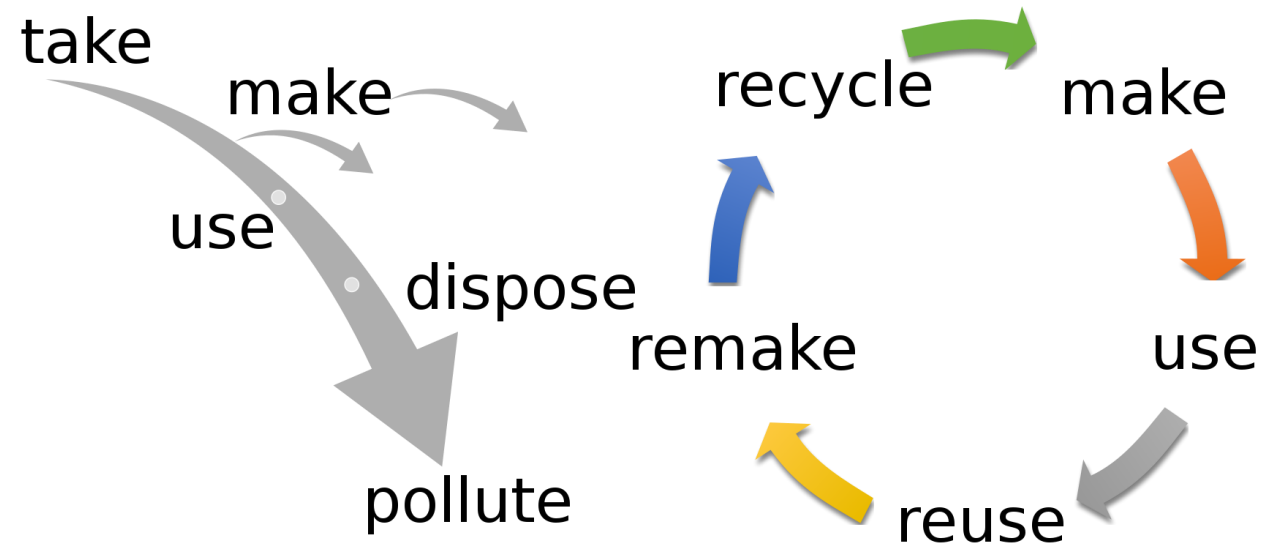

MAKE

DISPOSE

LINEAR ECONOMY

AIM OR OBJECTIVES OF CIRCULAR ECONOMY

- ❖ *CE aims to tackle global challenges such as climate change, biodiversity loss, waste, and pollution by emphasizing the design-based implementation of the three base principles of the model.*
- ❖ *The three principles required for the transformation to a circular economy are: designing out waste and pollution, keeping products and materials in use, and regenerating natural systems.*

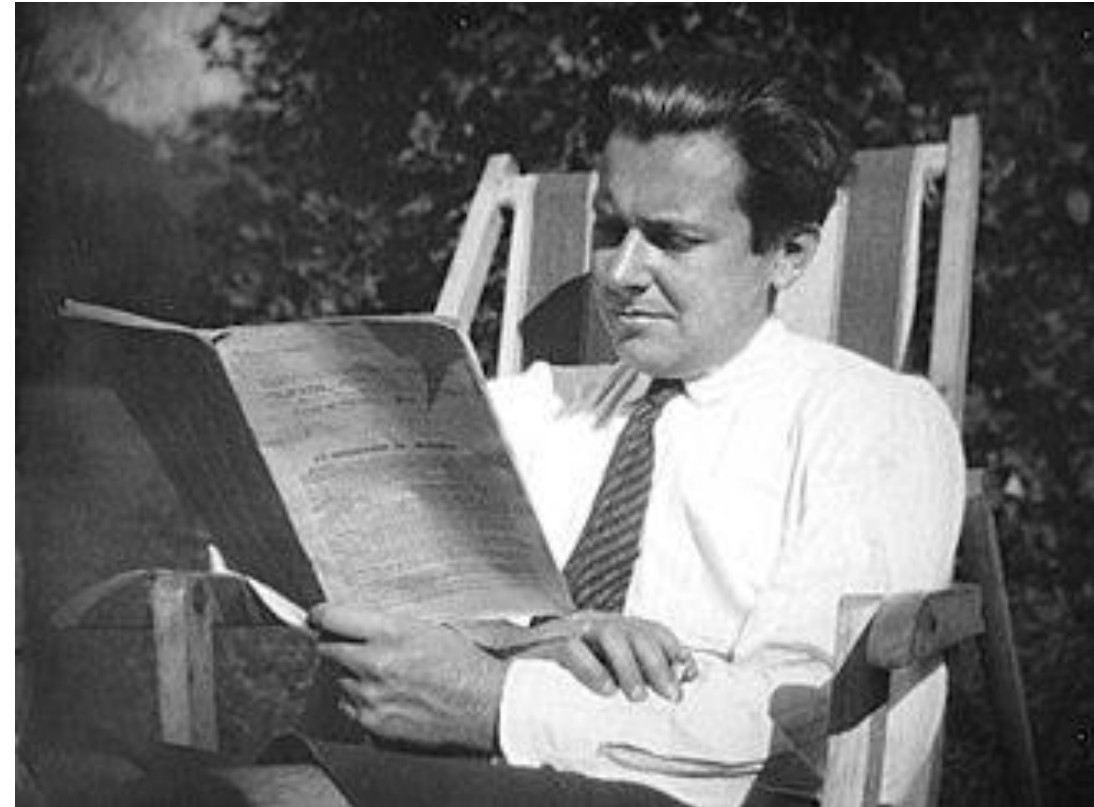

Karl Ludwig von Bertalanffy

(19 September 1901 – 12 June 1972)

❖ *An Austrian biologist known as one of the founders of general systems theory (GST).*

□ *This theory was then applied to other areas such as in the case of circular economy, to economics.*

QUESTIONS FOR PRACTICES

1. Which of the sub-topic we had been completed?

- (a) Sustainable development
- (b) Circular economy
- (c) Entrepreneurship
- (d) All of the above

Ans: (d)

2. Sustainability contains _____pillars ?

- (a) One
- (b) Two
- (c) three
- (d) Four

Ans: (d) Human, Social, Economic and Environment

3. Sustainable Development Report 2022, India has ranks

- (a) 121
- (b) 140
- (c) 100
- (d) None of these

Ans: (a)

4. How many sustainable goals of India

- (a) 15
- (b) 10
- (c) 17
- (d) 20

Ans: (c)

5. Take, make and dispose are related to the

- (a) Circular economy
- (b) Linear economy
- (c) Both
- (d) None of these

Ans: (b)

6. Make, use, reuse, remake and recycle are related to the

- (a) Circular economy
- (b) Linear economy
- (c) Entrepreneurship
- (d) None of these

Ans: (b)
