

BBAE2001: Economic Principles for Engineering Professionals

- Objectives:**
- To acquaint the students with the theoretical foundations of economics
 - To enable them to learn the concepts of economics for decision making

Credits:04

Semester 1

L-T-P-I:4-0-0-0

Module No	Content	Teaching Hours
Module-I	Introduction to Engineering Economics: Concept and Scope of Economics in Engineering, Difference between microeconomics and macroeconomics, importance of economics for engineers, key economic problems: scarcity and resource allocation. Demand and Supply: Concept, Types of Demand, Determinants of Demand and Supply, Law of demand and Supply with diagrams, Elasticity of demand, Elasticity of Supply, equilibrium price and quantity determination. Production: Meaning and Concept of Production, Factors of Production and Production Function, Fixed and Variable Factors, Law of variable proportion, Law of returns to a scale	(23 Sessions)
MID-TERM EXAMINATION		
Module-II	Cost Concepts: Concept and Types of Cost: Fixed, variable, marginal and average. Cost in Long Run and Short Run, Economies of Scale in long run. Revenue: Concept of Revenue, Types of Revenues: Total, marginal and average, concept and shapes of Total Revenue, Average revenue and marginal revenue, Concept of Profit and Sales maximization Market Structure: Perfect Competition-Features, Monopoly- Features, Degrees of Price Discrimination: First, Second and Third, Monopolistic Competition- Features and Oligopoly Market structure.	(22 Sessions)
* Provision for presentations / assignments / case analysis in additional sessions ** 1 Session = 60 Minutes		

Text Book

- Dwivedi, D N. *Managerial economics*. New Delhi: Vikas Publishing House. 8th Edition

References

- Geetika, Ghosh, P., & Chodhury, P. R. *Managerial economics*. New Delhi: Tata McGraw Hill. 2nd Edition.
- Koutsoyiannis, Modern Microeconomics, The Macmillan Press Ltd.

Course Learning Outcomes (CLO)

- CLO1 Explain the micro and macroeconomic concepts related to making prudent business decisions.
- CLO2 Illustrate the interrelationship between microeconomics and consumer behavior
- CLO3 Develop knowledge of the theories cost and production function
- CLO4 Analyze the application of various revenue cost and production theories in business
- CLO5 List different types of competitive market structures in business

BBA MS
Institute of Business Management,
GLA University, Mathura

Mapping of CLOs with POs & PSOs
