

Type-V: Questions based on Cube Face

181. A cube of side 80 cm is pointed yellow on all the face and then cut into smaller cubes of sides 8 cm each. Find the number of smaller cube having all the three faces pointed.

(a) 28

(b) 64

(c) 32

(d) 8

SSC CGL 2021 : 12/04/2022 (Shift-II)

182. A cube of side 49 cm is pointed purple on all the faces and then cut in to smaller cubes of sides 7 cm each. Find the number of smaller cubes having only one face printed.

(a) 150

(b) 25

(c) 50

(d) 100

SSC CGL 2021 : 13/04/2022 (Shift-II)

184. A cube of side 125 cm is painted red on all the faces and then cut into smaller cubes of sides 25 cm each. Find the number of smaller cubes having at least two faces painted.

(a) 48

(b) 36

(c) 44

(d) 52

SSC CGL (Tier-I) 12/04/2022 (Shift-III)

185. A cube of 4 cm size is painted green on all six faces. It is cut into smaller cubes of 1 cm size. How many cubes are there with 3 green faces?

- (a) 16 (b) 4
(c) 8 (d) 12

SSC CHSL 21/10/2020 (Shift-III)

186. A cube of side 12 cm is painted green on all the faces and then cut into smaller cubes of sides 2 cm each. Find the number of smaller cubes that have only one face painted.

(a) 68

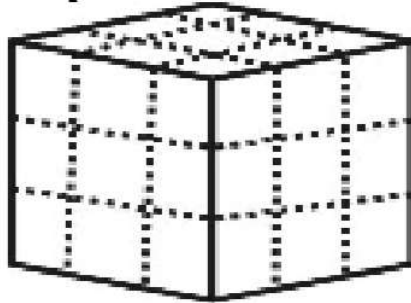

(b) 96

(c) 78

(d) 49

SSC CGL (Tier-I) 18/04/2022 (Shift-III)

- 187. A cube of $3'' \times 3'' \times 3''$ inch size was painted on all six sides and then cut into 27 smaller cubes of inch size. How many smaller cubes will have only two sides painted?**

- | | |
|--------|--------|
| (a) 10 | (b) 12 |
| (c) 8 | (d) 6 |

SSC CHSL 19/10/2020 (Shift-III)

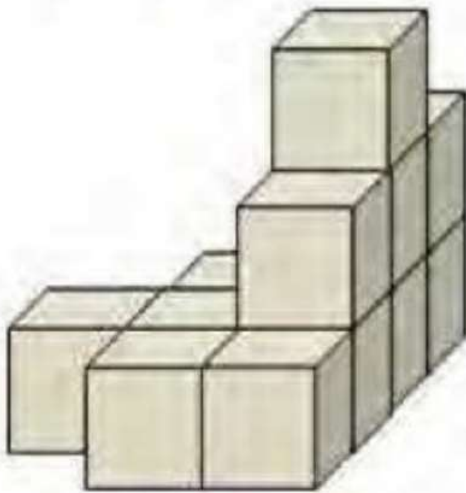

- 188. A cube coloured pink on all faces is cut into 27 small cubes of equal sizes. How many cubes are painted on one face only?**
- | | |
|--------------|--------------|
| (a) 4 | (b) 3 |
| (c) 8 | (d) 6 |

SSC CGL (Tier-I) – 13/06/2019 (Shift-III)

-
- 189. How many colors will be required to paint all the sides of a cube in such a way that the two adjacent sides do not become the same color ?**
- (a) 3 (b) 4
(c) 6 (d) 2

SSC CGL (Tier-I) – 19/06/2019 (Shift-III)

190. How many cubes are there in the given figure?

- (a) 12
- (c) 11

- (b) 13
- (d) 14

SSC CHSL 10/08/2021 (Shift-III)

Directions: A cube is painted with a colour on all its sides and then it is divided into 125 identical cubelets by applying cuts uniformly over the surface.

- 1] How many cuts are required?
- 2] How many cubelets are painted from exactly three sides?
- 3] How many cubelets are painted from exactly two sides?
- 4] How many cubelets are painted from exactly one side?
- 5] How many cubelets are painted from no sides?

Directions: A cube is painted with a colour on all its sides and then it is divided into identical cubelets by applying 15 cuts uniformly over the surface.

6] How many cubelets are formed?

7] How many cubelets are painted from exactly three sides?

8] How many cubelets are painted from exactly two sides?

9] How many cubelets are painted from exactly one side?

10] How many cubelets are painted from no sides?

Directions: A cube is painted with two colours- red and blue on three sides each such that all same-coloured sides are adjacent to each other and then it is divided into 216 identical cubelets by applying cuts uniformly over all surfaces.

31] How many cuts are required?

32] How many cubelets are painted with exactly two colours?

33] How many cubelets are painted with exactly one colour?

34] How many cubelets are painted with no colours?

Directions: A cube is painted with two colours- red and blue on three sides each such that two of the same-coloured sides are opposite to each other and then it is divided into 512 identical cubelets by applying cuts uniformly over all surfaces.

39] How many cuts are required?

40] How many cubelets are painted with exactly two colours?

41] How many cubelets are painted with exactly one colour?

42] How many cubelets are painted with no colours?
